Washington, D.C. 20530

January 27, 1986

Charles H. Tisdale, Jr. King & Spalding 2500 Trust Company Tower Atlanta, Georgia 30303

> United States v. Ralph C. Medley, et al. Medley Farm Site, Gaffney, South Carolina

Dear Mr. Tisdale:

As per our recent discussion in Raleigh, enclosed is a copy of National Starch and Chemical Corporation's Part "A", application submitted to EPA on or about November 18, 1980, for a permit to treat, store or dispose of hazardous wastes. It is quite apparent from the Part A that your client stores and disposes of a variety of hazardous wastes at its Charles S. Tanner Co. facility near Enoree, South Carolina.

Toluene, one of the hazardous wastes identified in the Part A, was found in pond samples taken at the Medley Farm site.

If I can be of any further assistance in this matter, please do not hesitate to contact me.

Sincerely,

Assistant Attorney General Land and Natural Resouces Division

nen Manhing, Aftorney Environmental Enforcement Section

Enclosure

Pam Sbar, EPA Headquarters Office of Enforcement and Compliance cc: Monitoring

> Kirk Macfarlane Assistant Regional Counsel U.S. EPA, Region IV

III. PRO	OCESSES (continued)
C. SPACE	OCESSES (continued) > E FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "TOT"). FOR EACH PROCESS ENTI- LOE DESIGN CAPACITY.
Α.	WASTE FILE INGLUDED CHLY BECAUSE OF POSSIBLE SPILL CONTAINENT
Ĭ	

IV	DESCRI	MOITS	OF HA7	ARDOUG	S WASTES
	D L 3 C I V		O1 1174	M	

- A. EPA HAZARDOUS WASTE NUMBER Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.
- B. ESTIMATED ANNUAL QUANTITY For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste/s/ that will be handled which possess that characteristic or contaminant.
- C. UNIT OF MEASURE For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE CO	DE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	. K
TONS	T	METRIC TONS	, M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

## D. PROCESSES

į

1. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed hazardous wastes: For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code/s/.

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

- 1. Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B,C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
- 2. In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
- 3. Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below) — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.
